COUNTRY Yugoslavia/Czechoslovakia
SUBJECT Hydroelectric Power Delegation
ORIGIN 25X1A6a

DATE: 25X1A6a
INFO. 14
DIST. 14 October 1947
PAGES
SUPPLEMENT 25X1X6

1. A special Yugoslav three-man technical delegation arrived in Prague during the first week of October to request a revision in the specifications for six hydroelectric power stations on order for Yugoslavia within the framework of the Czech-Yugoslav commercial treaty. The Chief of the Delegation is professor Obradovic of the Zagreb Technical School who is a non-Communist.
2. According to the delegation, the strategic considerations dictate a change in the plans for power stations. These stations are now to be built into hillside tunnels, regardless of the much greater expense involved.
3. The Schict firm of Usti Nad Labem is charged with devising the ventilation systems of such plants. The machinery is to be manufactured by the Janka concern of Radotin, and Storek of Brno will construct the water turbines.
4. In a private conversation, Obradovic decried the present military fever in Yugoslavia which increasingly forces ordinary business and technical matters into channels of military strategy.
